Setup Round Details

- For each round, configure the format and provide an optional description.
- You may duplicate your setup for all rounds.

The screenshot displays the 'EVENTBUILDER' interface for a 'THANKSGIVING TURKEY SHOOT - DEMO EVENT'. The left sidebar shows a navigation menu with categories: EVENT BASICS, GRAPHICS & DOCUMENTS, ONLINE REGISTRATION, SUPPORTERS & DONATIONS, SCORING (highlighted with a red arrow), and ADVANCED FEATURES. Under SCORING, 'Scoring Setup & Entry' is selected. The main content area is titled 'LiveScore' and shows the 'Round Setup' configuration for 'Round 1'. The configuration includes an 'Optional Description' field with the text 'This is a test.', a 'Round Winner Has Handicapping' section with a 'Highest Score' dropdown and a toggle for 'Enter Final Scores Only' set to 'OFF', and a 'Base Scoring Format' dropdown set to 'NFAA'. Below these are several numeric and text input fields: 'Ends Per Round' (12), 'Shots Per End' (5), 'Top Shot Value' (5), 'Tie Breaker - 1' (X's), and 'Tie Breaker - 2' (I.O.X.'s). At the bottom of the configuration panel are three buttons: 'CLEAR ROUND SCORES', 'DUPLICATE FOR ALL ROUNDS', and 'DONE'. On the right side of the interface, there is a vertical menu with options: 'Quick Preview', 'Event Site Link', 'Video Tutorials', 'Online Help & Chat', and 'Back to Dashboard'. A yellow circle highlights a 'Setup' table in the bottom right corner, which contains columns for 'ID' and 'Setup', with rows for 'Score Format' and a red 'X' icon.

Setup Mobile Scoring

- Choose MobileScore Setup from the main menu.
- Activate mobile scoring with the ON/OFF switch
- You can optionally turn on score validation
- Set the maximum scoring group size.

Activate Mobile Scoring By Round

- At the shoot, ONLY activate the mobile scoring toggle on the round when you are ready for archers to enter scores. Keep future rounds off to avoid confusion among archers.
